

Dr Sarah Jennings

Head of School, Economics and Finance
University of Tasmania

Phone: (03) 6226 2828

Mobile: 0459 069 250

Email: sarah.jennings@utas.edu.au

Dr Jennings is a natural resource economist with particular expertise in applied welfare analysis, including cost-benefit analysis and non-market valuation. Her involvement in marine economics includes the evaluation of climate change impacts and adaptation strategies, and exploration of the behavioural responses of recreational fishers to climate-induced changes.

She is also currently involved in projects that consider marine reserves and stock enhancements in a climate change context. Dr Jennings leads the national Fisheries Research and Development Corporation (FRDC) Building Capability in Fisheries Economics Project and is a leader of the Markets Theme in the NCCARF Marine Biodiversity and Resources Adaptation Research Network.
